REID AND RIEGE, P.C.
COUNSELLORS AT LAW

Executive & Physician Planning

Executives often need advice on how to structure their compensation packages, including stock options and other corporate benefits, in ways that dovetail with their overall estate plan. Through a collaborative effort with the attorneys in our Business Law Practice Area we counsel executives on strategies for optimizing their compensation and minimizing their estate tax liability.

Working with our Health Care Practice Area, we advise physicians on ways to structure their estate plans in light of the challenges posed by a heavy concentration of retirement accounts. We also work with our Tax Group and Fiduciary Services Group on wealth management and with our Bankruptcy & Insolvency Practice Area on asset protection. We strive to tailor each representation to our client's needs and we work closely with physicians to meet their individual estate planning goals.
