

REID AND RIEGE, P.C.
COUNSELLORS AT LAW

Land Use, Wetlands & Coastal Matters

We assist businesses, developers and individuals in securing local, state and federal approvals and permits necessary for the operation of their business or development of their property. Our lawyers represent clients before planning and zoning, wetlands, coastal commissions, the Connecticut Siting Counsel and other land use organizations. We also prepare and submit permit applications and cooperatively work with environmental and civil engineers, soil scientists and other professionals on a variety of new development, “smart growth” and Brownfields projects.

Attorneys
